Shot 1- (tilt up)

~~Shot~~ Shot of tower from down to up in morning time. It signifies that the person wake-up with new enthusiasm that today he will do progress in his/her work, और नई मानना, that's what makes us different from others, कुछ नया और innovative करने का जज्बा। The complex tower shows how much complex the world is ^{getting} then also humans are not stopping or losing faith. The complexity of tower signifies complex life. (हर सुबह हमारा नया जन्म होता है। बाज हम जो करते हैं वही सबसे ज्यादा मानने रखता है।)

Shot 2- (bird's eye)

That shows that they have to face chaos after having thought of success. In this unprecedented world they go and walk shoulder to shoulder.

Shot 3- (Pan)

This shot signifies that the person works throughout day which is represented by pan of city in daylight. And it also represents that city is very calm and free from chaos i.e. बाहर से बुरा है, अंदर उसके किन्हीं अराजकता है। (ये जो हम शांतिप्रिय दिखाई देते हैं न, ये हमारा दुनर है हकीकत नहीं)

That shows city is very peaceful from far distance but inside it, it is very chaotic.

Shot 4 - (tracking movement)

This shot is tracking of plane which signifies that the person is coming home after his whole day and is tired.

Shot 5 - (still shot)

This shot is of giant wheel and have two time of evening and of night. It signifies that life goes on, that spinning shows every day life as usual and some work and at the end wheel stops that signifies death.

Labyrinth → Unlike a simple maze, a labyrinth can only be solved in one way. When you think of mazes, you may picture many dead ends and winding paths, the same is not true within a labyrinth. The labyrinth only contains one winding road, which twists and turns but eventually leads you to an exit without any dead ends. This contains powerful symbolism for the soul's spiritual journey. These ancient 'mazes' are traditionally drawn with winding lines contained inside a circle.
